

Lineage II: Chronicle I, the Harbingers of War Errata

PAGE NUMBERS

When you use the PDF "Go to ..." function to reach a specific page, you might find that you're two pages short. The PDF counts the cover page and the inside cover page, while the actual page numbers don't begin until the title page. (Note that the page number at printed at the bottom of any page matches the Table of Contents.) If you're using the PDF "Go to ..." function, add two pages to the page number you want to jump to.

QUEST DESCRIPTIONS (P. 24)

The description of the quest to reach Clan Level 5 actually applies to Clan Level 4. The walkthrough for each quest (p. 172) is accurate. ("Clan 3" and "Clan 4" in the gray header bars on p. 172 indicate the pre-requisite level for each quest.)

ABYSS WALKER (P. 81)

Delete the Fake Death and Lure paragraphs; Abyss Walkers don't get either skill. Add this paragraph:

- Trick is the opposite of Hate (a Knight skill) in that, while Hate makes a monster hit you, Trick makes it leave you alone. Be cautioned though; if you use this on a monster when a member of a party, it will turn on another party member.

SONG OF THE HUNTER QUEST (PP. 145, 158)

You must be at least Level 35 to get a Circle 1 Hunting License. You must be at least Level 45 to get a Circle 2 license.

COIN OF MAGIC QUEST (P. 157)

One of the traders was omitted.

Blacksmith Duning (Hunters Village, S) will trade with Level 2 or 1 members.

1 *Gold Giant* for 5 Blood Dre Vanuls, 5 Silver Fairies and 10 Gold Wyverns

1 *Blood Succubus* for 5 Blood Dre Vanuls, 5 Silver Fairies and 10 Gold Wyverns

1 *Silver Undine* for 5 Blood Dre Vanuls, 5 Silver Fairies and 10 Gold Wyverns

1 *Manak's Gold Giant* for 10 Blood Dre Vanuls, 10 Silver Fairies and 20 Gold Wyverns

ANT NEST BOSS STRATEGY (P. 189)

It is no longer possible to sleep and hold the Nurse Ants, so the recommended strategy will no longer work. (sigh!)

ADDITIONAL DROPS (PP. 232FF)

Alternative drop lists were omitted for these creatures (all are in the Valley of Dragons). For lack of a better way to describe them, they are listed here as the "B" versions of the following 12 monsters. (Their other stats are identical, so the only way to distinguish one from the other is by what they drop.)
